VMS-AP-2015-01

VMS Unit Hardware Type Approval Process

This is to advise that Fisheries & Oceans Canada (DFO) has approved the following Vessel Monitoring System (VMS) unit.

Model Name/Type: BlueTraker VMS (Iridium)

This approval is on the basis that this unit will be used in the "satellite-only mode" to meet DFO's VMS reporting requirements. The above unit will be placed on the DFO VMS Approval List effective November 25, 2015.

Yours truly,

Natasha Barbour
Business and Technology Coordinator
